510mm diameter Shallow Chandelier						
710mm diameter Shallow Chandelier						
1010mm diameter Shallow Chandelier						

General:

Height measurements for chandeliers do not include the suspension chains. Suspension chains for chandeliers can be adjusted to the height needed upon installation.

All of our lamp holders are standard large Edison Screw (E27).

Made to UK / EU standards and designed to operate with a 240V / 50Hz

All measurements and weights are approximate - our lights are hand crafted so there will be some variation.

Dimmable LED filament light sources supplied included.

Assembly:

Your crystal will arrive with the crystal packaged separately in strands (this is common practice and is done to prevent damage to the crystal in transit). All you need to do to assemble your light is to hook each strand onto the frame with the hooks provided.

You will need a qualified electrician to install your light. To find one in the UK, try www.niceic.org.uk or www.napit.org.uk.

Our lights come with comprehensive installation instructions. They shouldn't need much maintenance but we give you some information on that too.

Where we're from.

All of our lights are designed and manufactured in England by skilled craftsmen and women.

All designs are copyright to Tigermoth Lighting Ltd.

Modifications available:

- Additional length of suspension chain
- Direct-to-ceiling fixing
- IP44 version
- UL version

Energy Rating:

Tigermoth Lighting is a member of the LIA
