TIGERMOTH
LIGHTING LTD

General:

Height measurements for chandeliers do not include the suspension chains. Suspension chains for chandeliers can be adjusted to the height needed upon installation.

All of our lamp holders are standard large Edison Screw (E27).

Made to UK / EU standards and designed to operate at 240V / 50Hz.

All measurements and weights are approximate - our lights are hand crafted so there will be some variation.

Dimmable LED filament light sources are supplied included.

Assembly:

Crystal chandeliers will arrive with the crystal packaged separately in strands (this is common practice and is done to prevent damage to the crystal in transit). All you need to do to assemble your light is to hook each strand onto the frame with the hooks provided.

You will need a qualified electrician to install your light. To find one in the UK, try www.niceic.org.uk or www.napit.org.uk.

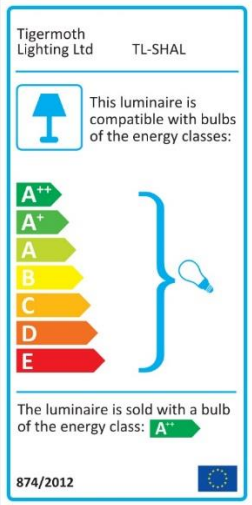
Our lights come with comprehensive installation instructions. They shouldn't need much maintenance but we give you some information on that too.

Modifications available:

- Additional length of suspension chain
- Direct-to-ceiling fixing
- Modified suspension for closer fitting to ceiling
- Certified IP44 version available (see next page).

Call us for more information on modifications.

Energy Rating:



Packaging Information:

The approximate box weights and dimensions are outlined below:

Number of Boxes	Dimensions (mm)	Weight (Kg)
410 Shallow Chain Chandelier		
1	440 x 440 x 330	9.0
410 Shallow Crystal Chandelier		
1	440 x 440 x 330	9.0
510 Shallow Chain Chandelier		
1	540 x 540 x 380	13.0
510 Shallow Crystal Chandelier		
1	540 x 540 x 380	13.0
710 Shallow Chain Chandelier		
1	740 x 740 x 390	22.0
710 Shallow Crystal Chandelier		
1	740 x 740 x 390	22.0
1010 Shallow Chain Chandelier		
1	1090 x 1070 x 160	31.0
1010 Shallow Crystal Chandelier		
2	1090 x 1070 x 160	10.0
	440 x 440 x 330	21.0
