General:

Please note that the bronze finish is available as standard with elephant grey flex and the brass finish available as standard with gold flex.

Please note that the lacquered brass finish may develop a slight patina over time due to the natural properties of the material.

All measurements and weights are approximate - our lights are hand crafted so there will be some variation.

We recommend that the chandelier is wired to a dimmer switch.

Made to IEC Standards designed to operate at 240V/50Hz. Certification for National Differences e.g. AS/NZS is available on request.

We recommend using only candle style light sources in this light. We can supply suitable dimmable LED light sources.

Modifications available:

- Additional flex suspension length to increase maximum hanging height

Call us for more information on modifications.
