#### General:

Height measurements for chandeliers do not include the suspension chains. Suspension chains for chandeliers can be adjusted to the height needed upon installation.

All the lamp holders in the Compass collection are standard large Edison Screw (E26).

Made to USA standards and designed to operate at 120V/60Hz.

All measurements and weights are approximate - our lights are hand crafted so there will be some variation.

Please note, light sources are not supplied with UL Listed orders.

We recommend using only candle or golf ball style light sources in this chandelier.

## Assembly:

You will need a qualified electrician to install your light.

Our lights come with comprehensive installation instructions. They shouldn't need much maintenance but we give you some information on that too.

#### Modifications available:

- Additional length of suspension chain

Call us for more information on modifications.

#### Made in England.

All of our lights are designed and manufactured in England by skilled craftsmen and women.

All designs are copyright to Tigermoth Lighting Ltd.
