General:

All of our lamp holders are standard large Edison Screw (E26).

Made to USA standards and designed to operate at 120V / 60Hz.

All measurements and weights are approximate - our lights are hand crafted so there will be some variation.

Please note that the antique brass finish may develop a slight patina over time due to the natural properties of the material.

Please note, light sources are not supplied. We recommend using only frosted candle or golf ball style light sources in this chandelier.

Assembly:

You will need a qualified electrician to install your light.

Our lights come with comprehensive installation instructions. They shouldn't need much maintenance but we give you some information on that too.

Made in England.

All of our lights are designed and manufactured in England by skilled craftsmen and women.

All designs are copyright to Tigermoth Lighting Ltd.

WEEE Registration Number: WEE/BU3809XD

Modifications available:

- Custom length of suspension rod
- Client's own silk shades
- Custom silk shades - any colour from Pongees 745 Indian Douppion or 431D Crepe Satin range
