

TIGERMOTH
LIGHTING LTD

IMMACULATE STATEMENT
LIGHTING, HANDCRAFTED
FROM THE FINEST MATERIALS,
MADE TO ORDER IN ENGLAND.

Beautiful interiors deserve beautiful lighting. Our customisable collection of chandeliers, pendant lights, wall lights and lamps delivers in immaculate fashion.

From our workshop in the South of England, we create elegant lighting to grace gorgeous hotels, restaurants and private residences worldwide.

Our designs combine lightness and strength, exquisitely realised in solid hewn alabaster, delicate metal chains, fine silks and hand-wrought metalwork. Each and every Tigermoth light is lovingly crafted by our skilled and discerning team, with absolutely no detail overlooked.

We work as a professional creative partner, meticulously supporting interior designers to achieve their vision for every space.

ESTABLISHED 2009

OUR STORY

The Tigermoth story is rooted in a passion for interiors, a strong engineering heritage and an unwavering attention to detail.

Tigermoth was born 16 years ago out of a desire to create elegant modern lighting, immaculate in every detail. We successfully launched our first collection of pendant lights at Decorex in 2009, and we have grown organically ever since.

Every year, we add new designs to a collection that features 1000's of customisable options. Meanwhile, the team of Tigermoth's talented craftspeople has grown to fill a dedicated workshop in the picturesque Thameside village of Pangbourne.

In all that time, the one thing that has not changed is the care and attention we pay to every detail of every light, for every client we work with.

OUR ETHOS

Harriet Daniels
Founder and creative director

For many, the appeal of our lights lies in their juxtaposition of lightness and strength. Our design ethos reflects the background of Tigermoth founder Harriet Daniels, which fuses a lifelong love of interior design with a first career in engineering.

Tigermoth is recognised as a Lighting Industry Association Quality Assured Company. We are proud members of Made in Britain, an organisation that promotes British manufacturing. Our work has been recognised by the interiors press internationally, including House and Garden, 25 Beautiful Homes, The English Home magazine and many more. In 2020, we were winners of the SBID Product Design Awards for our Fold Linear Chandelier.

A BESPOKE DESIGN SERVICE

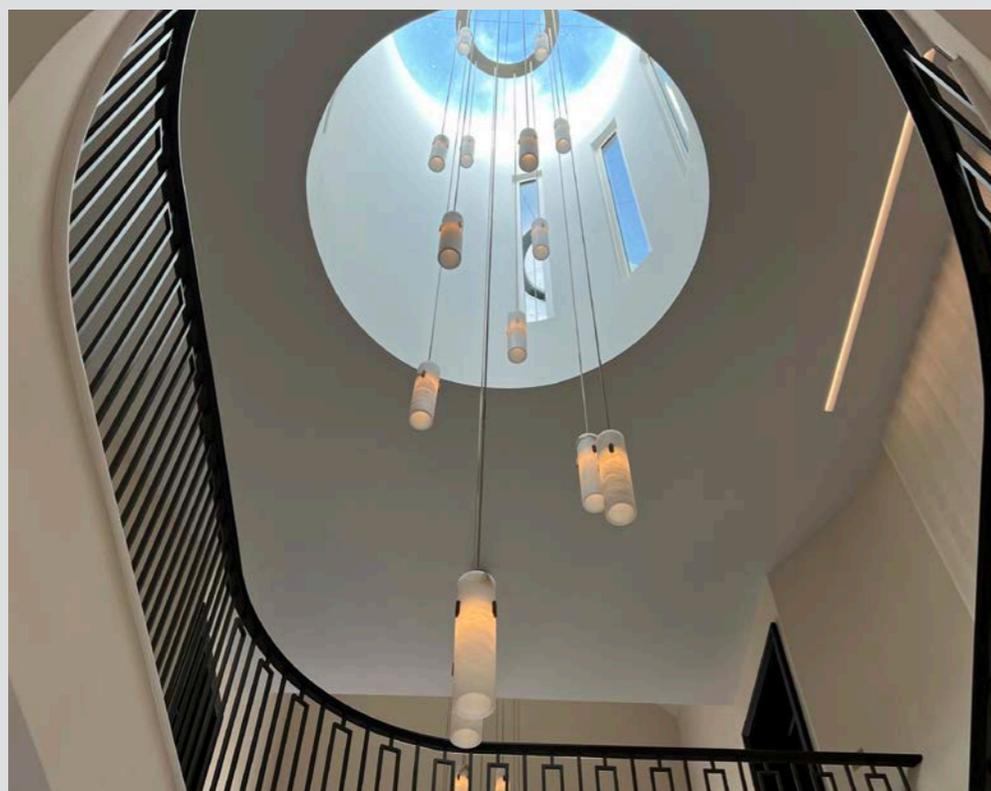

CUSTOM-MADE LIGHTING

We love to tailor our lighting designs to suit your project! We've been creating bespoke versions of lights for our clients since we first started out in 2009.

In our standard collection, we offer numerous colour and finish options, as well as an array of modifications which can be applied to lights in our standard collection. Our price list sets out the modifications available for each piece and the cost associated with that.

For projects where more substantial design work is needed, we operate a custom-made design service. This is subject to a minimum order value and is exclusive to our trade clientele.

Contact us with details of your custom requirements to find out more about how we can help with your project.

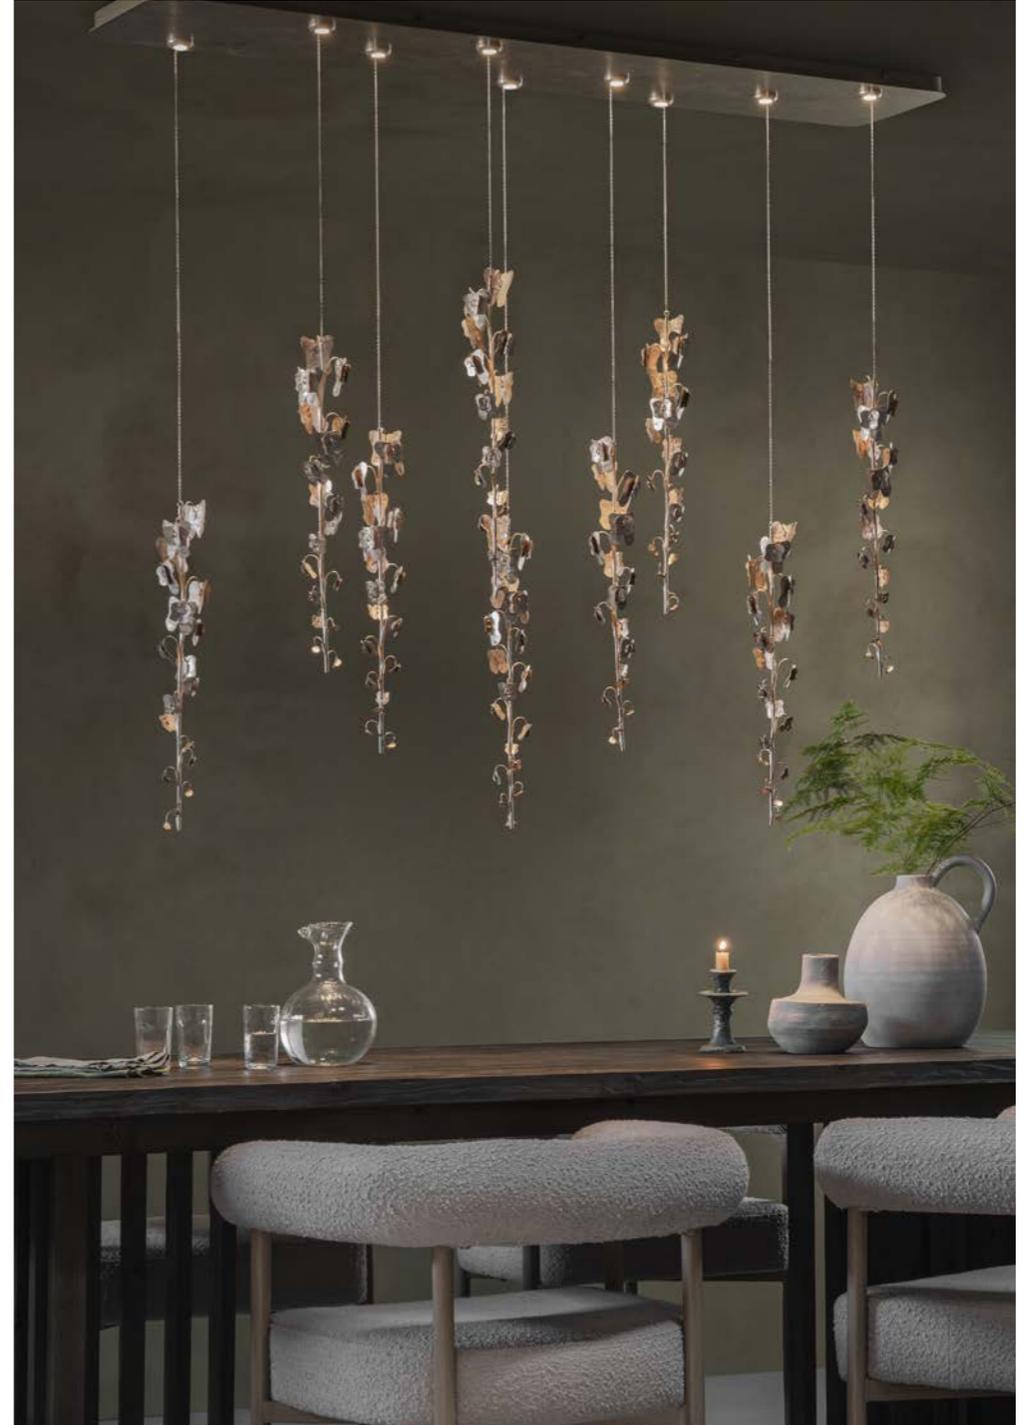

Customised Alabaster Pendant Cluster for a space where the ceiling rose was suspended underneath a stairwell roof light. We designed a “halo”-shaped ceiling rose, which was supported by tensioned steel wires strung across the stairwell aperture. This design solution allows daylight into the space during day time unobstructed. The shape of the halo echoes the shape of the stairwell and the alabaster pendants suspended from it create a soft glow at night. The cascading pendant drops add a sense of drama and visual interest in the space.

Many thanks to Deslyn Studio for allowing us to share these stunning images of the final installation.

OUR FINISHES

Beautiful materials are the inspiration for everything we do and they are also the first thing that most people notice about our lighting. We combine our hand-crafted metalwork with luxurious silks, hand-cut crystals, delicate chain strands and gold leaf to create stunning elegant pieces that are built to last. There are many different options for each format, enabling a large number of different colours and designs to be created. We are also able to create special finishes to your specification as part of our custom service.

FINISH SAMPLES

We are very proud of our trade-only next day sampling service. We also offer sample kits and presentation boxes to ensure that you have a number of options to see for yourself the beauty of the materials we work with.

THE TIGERMOTH SHOWROOM

The beautiful materials that we use and the craftsmanship that goes into each and every light is something that is best seen first-hand. With most of our different formats, finishes, sizes and colours on display, visiting our showroom is by far and away the best way to view the Tigermoth collection.

In September 2025, we relocated our main showroom from the Chelsea Harbour Design Centre back to its original home in Pangbourne. Visit us here between 9am - 5pm Monday to Friday, no appointment necessary. If you would like to make an appointment for a design consultation, or for your client to visit, please do get in touch.

We still retain our showcase at Chelsea Harbour and are happy to host meetings in the design club there upon request.
